ECOFLEX PACKAGING

MANUFACTURE OF PLASTIC BOTTLE, JARS, CAPS & CLOSURES

ECOFLEX PACKAGING IS A PLACE WHERE QUALITY MEETS SATISFACTION

About Us

Ecoflex Packaging is a registered company specializing in manufacturing of plastic Bottles, Jars, Closures and Caps . Ecoflex Packaging's objective is to design, manufacture and deliver a wide range of packaging products in a manner that meets and exceeds our customer's requirements. We will do this in such a way that will allow us to be profitable yet competitive in order to provide customers with innovative and solid packaging solutions.

A supplier who values your business and does not just take your orders for granted, you will find a refreshing approach at Ecoflex Packaging where time honored values and customer focused service work hand in hand with cutting edge technology.

We cater to the packaging requirements of the cosmetics, personal care, pharmaceuticals and food sectors. Our containers product line ranges in different sizes according to the customers need and consists of caps and containers made from a variety of plastic resins, including high-density polyethylene (HDPE), polypropylene (PP) and low-density polyethylene (LDPE)

Out Strengths

- Customer satisfaction
- Cost effectiveness
- Best quality of products
- Timely delivery
- Innovative approach
- Excellent extrusion quality
- A wide distribution network
- Ability to meet bulk orders
- Products available in various designs and types

Services

Product Development

We approach new product development in a series of stages focused at addressing the specific demands of your project.

We discuss your requirements in detail to gain a clear understanding of who the product is for, what need it fulfils and what you want it to do for you.

Following our initial consultation we propose the Design Brief.

This document clearly defines the project objectives, what opportunities exist and what constraints need to be considered.

We then offer our Development Programme detailing the different stages we believe most appropriately address the Design Brief. This sets out the budget costs, timescales and terms of business.

Foil Stamping

We are service provider of bottle caps hot stamping services. We serve our customers with high quality stamping tools and machines. With immense expertise and logistical support we meet the demands of effective, high-volume stamping production in an efficient manner.

The customer support team of our company is at your services round the clock to reply to the queries and thereby serves the requirements quickly.

Shrink Labeling

Shrink sleeve labels are one of the fastest growing segments in the label industry. As companies continue to re-design their packaging and the demand for sharper, more aesthetically pleasing designs continue to rise, more companies are converting their traditional pressure sensitive labels into shrink sleeve labels.

Shrink sleeves offer companies more flexibility in terms of design and makes the products stand out from the rest of the competition.

Shrink sleeves can fit onto almost any kind of container shape and material.
